PROJECTS

Coderheros, *Team Project Manager / Full Stack Developer* [Github](#) | [Website](#)
- Collaborated with a remote cross-functional 26-person team to onboard and ship features in under one month
- Conducted code reviews, approved Pull Requests, and led team meetings to ensure tasks were completed
- Pitched design ideas made with Figma to the stakeholders weekly, and also showcased newly implemented features
- Utilized Ant-Design and Less to style landing pages and implemented media queries to ensure the site was responsive
- Followed accessibility protocols to ensure that all font sizes and colors were in accordance with accessibility laws

instaJam/Freelance, *Full Stack Developer*
React.js | Redux Thunk | Axios | Material-UI | GitHub | MongoDB|Express | Nodemon [Github](#)
- Built a React app with front-end features that allowed users to register new accounts, login, create, and edit posts
- Constructed and deployed RESTful API to facilitate authorized user activity and utilized Axios to call the backend to store user information and saved passwords
- Implemented Vercel to deploy React app frontend and MongoDB to host backend components

Literary Tavern/Freelance, *Full Stack Developer*
React.js | CSS3 | GitHub | Vercel [Github](#) | [Website](#)
- Created a React application and utilized CSS3 to ensure that the site is responsive and cross-platform compatible
- Used state management to make all items on the menu responsive to changing categories of different offerings
- Implemented Vercel to deploy React app frontend and Github to make sure all new commits and pushes update the master branch and reflect on the site immediately

EXPERIENCE

Literary Tavern, *Cleveland, OH - Server* February 2022 - Present
- Assisted with cleaning tables, clearing leftovers, and keeping the dining area neat and pleasant
- Collaborated with the kitchen and bar staff for prompt and accurate delivery orders
- Demonstrated excellent service by welcoming guests and sitting diners comfortable in the dining area
- Verified guests orders, memorized menu orders, and accommodated orders to fit customer preferences
- Provided exceptional team-building skills by building rapport with a diverse group of customers, managers, and team members, quickly resolving issues and concerns
- Ensured restaurant sections were up to standards making sure utensils and kitchen area were cleaned to comply with state regulations

EDUCATION

BloomTech (FKA Lambda School), *Full-Time Program, Full Stack Web Development*
